

TOCC Public Services Committee
Agenda
May 8, 2019

- This meeting is open to all Town residents
- A Town wide traffic study is currently planned for the Fall of 2019. The Town manager has executed the contract amendment with VHB dated April 11th. The plan is for VHB to develop a final draft of the RFP and to present this to the PSC for comments at the June 13th PSC meeting
- Todd advised that the safety recommendation(s) (center line striping) at Leland & East will be implemented in the Spring after repaving

GUEST PARKING PASSES

- The PSC recommends that the residents in Permit Parking areas be issued (1) additional guest parking pass upon request (for a total of 2). Two guest passes will be the new norm in years following for those requesting same
- The existing protocols for applying for a permit parking pass will apply for the issuance of the second guest parking pass
- Residents are to be reminded that that the guest parking pass is only valid in the vicinity of the Town resident's address
- Town office will decide on the best way to inform residents that they may request a second guest pass
- The Council held a discussion on guest parking passes at the April 24th Council meeting and they voted to approve the issuance of a second guest parking pass
- Todd will do an article in the June Forecast announcing this to residents and how to request a second pass
- Other PSC items:
 - Request to change speed limit on Oak Lane by Vi Lund (7409 Oak lane). PSC recommended that this be looked at when the traffic study is performed
 - Request for a crosswalk at Leland and 44th Street by Melanie Mansfield (Leland & East). The PSC will discuss this at the May PSC meeting. Most likely, this request will be made part of the traffic study. Dave Walton will ask Joe Cutro to look at this when he is the Town again
 - Construction parking email from Jim Fitzgerald (7203 46th Street) This was distributed to other PSC members on 5.6 and Mr. Fitzgerald was invited to address the May 8th meeting
- The PSC was asked to look at parking in the vicinity of Zimmerman Park in light of the garden improvements and the possibility of a DEA (dog exercise area). The Town office requested input from Joe Cutro on this subject and his report dated 1.29.19 is on record.

- B-CC CAT (Community Advisor Team) – No Report
- Next Meeting – **Thursday, June 13, 2019**
