

The CEC Plastics Reduction Subcommittee will meet in the Town Hall on October 8, 2019 at 7 p.m. to discuss:

Recycling:

- 1) See recycling tip of the month below. We can send this out to be included in the Town Crier and/or ask to send out the letter which Thornton wrote which spells out all the recycling tips (see attached). We could ask to put this letter on the website also.
- 2) How is the glass collection working? Is there a better way to do this?
- 3) Should we organize a tour of Montgomery County recycling facility?
- 4) Paper recycling - do we need to put paper in a paper bag as Kirk has suggested?

Plastics:

- 1) Looks like we won't be doing an event featuring Kirsty's plastic sculpture this year so let's discuss whether another event that features ways people have for avoiding single-use plastics would work.
- 2) Should we rename our committee?

RECYCLING TIP OF THE MONTH

HOW TO PROPERLY RECYCLE PLASTIC FOOD CONTAINERS. Items such as plastic bottles, yogurt and soup containers can be recycled by Goode Companies. However, all containers must be CLEAN. In addition, please leave the caps and lids on the containers so they do not clog the machinery.

YOU CANNOT RECYCLE clamshell food containers, plastic cups, plates or utensils, plastic tablecloths or Styrofoam. If you must use disposable tableware, look for compostable products and compost them.
